

ASHWATH N

Python Backend Developer | FastAPI & REST APIs | Problem Solver

[linkedin.com](#) | [github.com](#) | [leetcode.com](#) | [portfolio](#) | nashwath613@gmail.com | +91 8807444866

PROFESSIONAL SUMMARY

AI and Data Science undergraduate specializing in Python backend development, FastAPI, and REST APIs, with hands-on experience building, debugging, and testing production API endpoints, plus applied machine learning experience.

SKILLS

Core Areas: REST API Design & Integration, Endpoint Development & Debugging, Request/Response Validation, JWT Authentication, OAuth2PasswordBearer, Test Result Analysis

Programming Languages: Python, Java, SQL (Aggregations, Query Optimization)

Frameworks & Tools: FastAPI, SQLAlchemy, Pydantic, Docker, MySQL, PostgreSQL, Pandas, Postman, Swagger UI / OpenAPI, Git, Selenium (Familiar), HTML/CSS (Basic)

Soft Skills: Analytical Thinking, Cross-functional Collaboration, Written & Verbal Communication

INTERNSHIP

Python Developer Intern (On-site) — LITZ Tech, Coimbatore

Jun 2025 – Jul 2025

- Wrote, tested, and debugged REST API endpoints in a production Python backend, validating request/response handling and resolving functional issues that improved overall system reliability
- Collaborated with a 5-engineer development team using Git for version control to diagnose and fix bugs impacting real-time project workflows, reducing recurring functional issues

EDUCATION

Dr. Mahalingam College of Engineering and Technology, Tamil Nadu, India

Sep 2023 – Jun 2027

B.Tech in Artificial Intelligence and Data Science — CGPA: 8.05

Sri Lathangi Vidhya Mandhir Higher Secondary School, Tamil Nadu, India

Apr 2022 – Apr 2023

Percentage: 86.33

PROJECTS

Automated Test Metrics Analyzer

Feb 2026 – Mar 2026

- Automated parsing and analysis of Selenium-generated test result CSV files using rule-based formulas, cutting manual QA review time
- Designed and implemented REST API endpoints with Python, FastAPI, and Pandas to compute test metrics and expose QA insights through structured JSON responses

Agri Scan AI

Jul 2025 – Oct 2025

- Developed an AI-driven crop disease detection system to identify infected leaves early, supporting timely agricultural intervention
- Built and trained a CNN-based image classification model using Python, TensorFlow, and EfficientNetB0, achieving 92% classification accuracy across multiple crop types

Leave Mate

Nov 2024 – Jan 2025

- Designed a multi-level leave management system with role-based, real-time approval tracking for students and faculty
- Built backend using Python and MySQL, implementing CRUD-based data handling and a multi-step faculty approval workflow

CERTIFICATIONS

- Hands-on Training in Generative AI Model Deployment — AI for Students Initiative
- HackerRank Certified — Python (Basic), validated proficiency in core syntax and problem-solving
- HackerRank Certified — REST API, validated proficiency in REST API concepts and usage

ACHIEVEMENTS

- Secured a Top-150 rank (All India) in the Amazon ML Challenge 2025
- Solved 300+ problems on LeetCode, strengthening algorithmic and problem-solving skills
- Earned a 100-Day Coding Streak Badge on LeetCode for consistent daily practice

BEYOND ACADEMICS

- Class Representative — Facilitated coordination between faculty and students to ensure effective communication
- Vice President, FACArtClub — Directed art initiatives and led campus-level creative events
