

ASHWATH N

Python Backend Developer | FastAPI & REST APIs | Problem Solver

[linkedin.com](#) | [github.com](#) | [leetcode.com](#) | nashwath613@gmail.com | +91 8807444866

PROFESSIONAL SUMMARY

AI and Data Science candidate skilled in Python and REST API development, with hands-on experience automating software test result analysis and debugging production API endpoints. Strong in problem-solving and analytical thinking, seeking to grow as an SDE through real-world projects.

SKILLS

Core Areas: REST API Design & Integration, Endpoint Development & Debugging, Test Result Analysis

Programming Languages: Python, Java, SQL (Aggregations, Query Optimization)

Frameworks & Tools: FastAPI, MySQL, Postman, Swagger UI / OpenAPI, Git, Selenium (Familiar), HTML/CSS (Basic)

Soft Skills: Analytical Thinking, Cross-functional Collaboration, Written & Verbal Communication

INTERNSHIP

Python Developer Intern (On-site) — LITZ Tech, Coimbatore	Jun 2025 – Jul 2025
- Wrote and debugged REST API endpoints in a production backend, resolving functional issues that improved overall system reliability - Collaborated with a 5-engineer development team to diagnose and fix bugs impacting real-time project workflows, reducing recurring functional issues	

EDUCATION

Dr. Mahalingam College of Engineering and Technology, Tamil Nadu, India	Sep 2023 – Jun 2027
<i>B.Tech in Artificial Intelligence and Data Science — CGPA: 8.05</i>	
Sri Lathangi Vidhya Mandhir Higher Secondary School, Tamil Nadu, India	Apr 2022 – Apr 2023
<i>Percentage: 86.33</i>	

PROJECTS

Automated Test Metrics Analyzer	Feb 2026 – Mar 2026
- Automated analysis of Selenium-generated test result CSV files using predefined rule-based formulas, cutting manual QA review time - Built REST API endpoints with Python, FastAPI, and Pandas to process test metrics and surface actionable QA insights	
Agri Scan AI	Jul 2025 – Oct 2025
- Built an AI-driven crop disease detection system for early identification of infected leaves - Implemented with Python, TensorFlow, and EfficientNetB0, achieving 92% classification accuracy across multiple crop types	
Leave Mate	Nov 2024 – Jan 2025
- Designed a multi-level leave management system with real-time approval tracking - Built backend with Python and MySQL, implementing secure data handling and a multi-step faculty approval workflow	

CERTIFICATIONS

- Hands-on Training in Generative AI Model Deployment — AI for Students Initiative
- HackerRank Certified — Python (Basic) validated proficiency in core syntax and problem-solving

ACHIEVEMENTS

- Secured a Top-150 rank (All India) in the Amazon ML Challenge 2025
- Solved 300+ problems on LeetCode, strengthening algorithmic and problem-solving skills
- Earned a 100-Day Coding Streak Badge on LeetCode for consistent daily practice

BEYOND ACADEMICS

- Class Representative** — Facilitated coordination between faculty and students to ensure effective communication
- Vice President, FACArtClub** — Directed art initiatives and led campus-level creative events
